

## Phos MU200

### Product specification

#### Product Description

Phosphate based salts used as Stabilizer for UHT milk and UHT cream.

#### Applications

**Phos MU200** is used as a stabilizer for the manufacture of UHT milk, evaporated milk, and UHT cream.

#### Recommended Dosage

The recommended dose varies between 0.02 and 0.08% calculated in final product. It is recommended to apply the stabilizer 10% solution in water.

#### Composition

|                       |             |
|-----------------------|-------------|
| Sodium polyphosphates | <b>E452</b> |
| Sodium orthophosphate | <b>E339</b> |

#### Benefits

1. Provide high quality product which improve milk thermo stability
2. Stabilizes the pH of Milk: - E339 adjustment milk pH (pH control) due to good buffering capacity.
3. Increase casein stability: - E452 provide calcium binding and makes casein more stable by reducing milk calcium content and delay the rate of gel formation (extended milk shelf life).
4. Requires low dosage (low cost).
5. Prevents formation of milk stones in the processing equipment (increase the processing time).
6. Preserves the natural taste of milk.

#### Properties

|                     |                    |
|---------------------|--------------------|
| pH-shift:           | <b>+0.2/+0.4</b>   |
| Calcium binding:    | <b>Very strong</b> |
| Buffering capacity: | <b>Very strong</b> |

#### Chemical & Physical Specifications

|                                 |                     |
|---------------------------------|---------------------|
| Appearance:                     | <b>White powder</b> |
| Odor:                           | <b>Neutral</b>      |
| Moisture:                       | <b>Max 3%</b>       |
| pH (1% solution):               | <b>11.4 ±0.3</b>    |
| P <sub>2</sub> O <sub>5</sub> : | <b>57% ± 1</b>      |

#### Heavy Metal Specifications

|          |                   |
|----------|-------------------|
| Arsenic: | <b>Max. 1 ppm</b> |
| Lead:    | <b>Max. 1 ppm</b> |
| Mercury: | <b>Max. 1 ppm</b> |
| Cadmium: | <b>Max. 1 ppm</b> |

#### Shelf-life

Shelf life is 2 years from date of production.

#### Storage

Should be stored under cool and dry conditions. (protect from humidity)

#### Packaging

Paper sacks with polyethylene liner 25 Kg.

#### GMO Declaration

Labelling not required according to EEC regulation **1829/2003** and **1830/2003**.

#### Certificates

ISO 9001, ISO 14001, ISO 45001, FSSC: V6
