

Tex Mono 160

Description

Tex Mono 160 is an emulsifier prepared from palm oils and fats.

Application

1. Water in oil emulsifier in table margarine
2. Aerating agent and shelf life extender in bakery margarines and shortenings.
3. Aerating agent in ice cream and imitation creams.
4. Chewing gum.
5. Cheese products.

Ingredients

INGREDIENT	E-NUMBER
Mono & Diglycerides	E-471

Recommended dose

Based on product recipe.

Direction of use

Premix the powder with other dry ingredients.

Benefits

1. Efficient and easy processing.
2. Improved product quality.
3. Facilitates and stabilises the oil-in-water emulsion during emulsification and processing.
4. Ensures a homogeneous and stable emulsion in the finished product.
5. Imparts a fine and stable fat distribution.
7. Imparts a good aerating agent in bakery gel formulations, ice-cream and imitation creams.
8. Extends shelf-life extender in bakery margarines and shortenings.

Physical and Chemical Specification

SPECIFICATION	RESULT
Appearance	Creamy – White powder.
Odor and flavor	Natural.
Loss on drying	Max. 15%.
pH	6.5 – 7.5 (Measured in 1% aqueous solution).
Total Monoglyceride (%)	Min 60.
Acid Value (KOH/g)	3.00 max.
Iodine Value (g/100g)	3.00 max.
Melting Point (°C)	60 – 70.
Free Glycerol (%)	1.00 max.
Free Acids (%)	3.00 max.

Microbiological Specification

SPECIFICATION	RESULT
Total Plate Count	Max. 25,000 cfu/g
Yeast and Mold	Max. 500 cfu/g
Salmonella	Absent in 25 gm
Coliforms	Absent

Packaging

Heavy duty bags.
 25 kg **S. Code: 80036.**
 5 kg **S. Code: N/A.**
 1 kg **S. Code: N/A.**

Shelf life

24 month from production date.

Storage Conditions

Stored in dry place away from direct sunlight

Technical Data Sheet

Head Office

243, Horreya Avenue Sporting,
 Alexandria, Egypt.
 Tel: +203 429 2030 / 4211200.
 Fax: +203 429 2060.

Factory

New Borg el Arab City,
 4th industrial Zone.
 Area: 11, 12, 13, Block 15.

Cairo Branch

15 Abd El-Wahab El-Bishry St.
 Cairo, Egypt.
 Tel: +202 22681519 / 90727.
 Fax: +202 226 907 287.
