

Textra CM 110

Description

Textra CM 110 is a blend of food grade stabilizers & emulsifier in powder form for Ice cream.

Application

For ice cream manufacturing especially for what is containing vegetable fat.

Ingredients

INGREDIENT	E-NUMBER
CMC	E-466
Guar Gum	E-412
Emulsifier	E-471

Recommended dose

Depending on the fat percent and total solids from 0.65 - 0.9 % depending on the desired texture.

Direction of use

Premix the powder with other dry ingredients.

Benefits

1. Prevent formation of ice crystals.
2. Increase the over run.
3. Gives creamy mouth feel.
4. Ensures a good overrun in the ice cream product.
5. Gives a fine and smooth texture.
6. Gives excellent stability.
7. Avoids the effects of thermal shocks during the distribution of the ice cream.
8. Slows down the melt down of the ice cream.

Physical and Chemical Specification

SPECIFICATION	RESULT
Appearance	Creamy to White Powder
Odor and Flavor	Natural
Loss on drying	Max. 12%
pH	6 – 7 (Measured in 1% aqueous solution)

Microbiological Specification

SPECIFICATION	RESULT
Total Plate Count	Max. 20,000 cfu/g
Yeast and Mold	Max. 500 cfu/g
Salmonella	Absent in 25 gm
Coliforms	Absent

Packaging

Heavy duty bags.
25 kg **S. Code: N/A.**
5 kg **S. Code: N/A.**
1 kg **S. Code: N/A.**

Shelf life

24 month from production date.

Storage Conditions

Should be stored away from aromatic products, under conditions not exceeding 25 °C and 70% atmospheric humidity.

Technical Data Sheet

Head Office

243, Horreya Avenue Sporting,
Alexandria, Egypt.
