

Textra P204

Description

Textra P204 is Gelling system formulated for the production of spreadable processed cheese.

Applications

Spreadable processed cheese

Ingredients

INGREDIENT	E-NUMBER
Maltodextrin	-
Cellulose gum	E466
Carrageenan	E407
Sodium alginate	E401
Locust bean gum	E410

Recommended Dosage

0.8 – 2%

Benefits

1. Shiny surface with no syneresis
2. Smooth and creamy texture
3. Rich body and excellent mouth feel
4. Protein reduction
5. UHT or batch cooker process

Physical and Chemical Specification

SPECIFICATION	RESULT
Appearance	Off-white to yellowish Powder
Odor	Neutral
Moisture	Max. 12%
Viscosity (1% Solution) (Rbm100,L2,at temp.25°C)	Min 30 cP
Ash	Max5%

Microbiological Specification

SPECIFICATION	RESULT
Total Plate Count	Max. 10,000 cfu/g
Yeast and Mold	Max. 500 cfu/g
Salmonella	Absent in 25g
E.Coli	Absent in 1g

Packaging

Heavy duty bags.
25 kg

Shelf life

24 month from production date

Storage Conditions

Should be stored under cool and dry conditions in unopened bags

Technical Data Sheet

Head Office

243, Horreya Avenue Sporting,
Alexandria, Egypt.
