1. Executive Overview & Industry Alignment

Meat & Poultry Restructuring

- Dedicated Protein Sector:** Replaced generic "Savory & Meat" with **Meat & Poultry**, separating red meat processing from whole-muscle poultry injection.
- Targeted Subcategories:** Emulsified Sausages, Burgers/Kofta, Injected Chicken/Turkey Breasts, Cured Meats, and Cellulose Casings.

Snacks & Savory Seasonings

- Savory Reallocation:** Seasonings, spice extracts, and dusting flavorings are now organized under **Snacks & Savory Seasonings** (Chips, Crackers, Instant Soups).
- Wet Systems Segregation:** Sauces, mayonnaise, and gravies are unified under **Sauces, Condiments & Dressings**.

2. Standard 3-Level Taxonomy Architecture

3. Core Industry Sector Matrix

Level 1: Industry	Level 2: Category	Level 3: Product Application	Key AWA Products
Meat & Poultry	Processed Meat, Minced, Poultry, Casings	Emulsified Sausages, Injected Poultry, Burgers, Casings	Textra P Series, Impro Meat, Cellulose Casings
Snacks & Savory Seasonings	Topical Seasonings & Dusting, Culinary	Potato Chips, Extruded Snacks, Instant Noodle Seasoning	Pepper Black, Paprika, Garlic/Onion Oleoresins
Dairy	Cheese, Frozen Dairy, Fermented	Triangular Processed, White/Feta, Ice Cream, Margarines	Textra Feta 400, Feta 341, Talaga 300, GMS
Bakery	Bread, Pastry, Cakes, Fillings	Sliced Bread, Croissants, Sponge Cakes, Jams	Calcium Propionate, Bake C 10, GMS, Pectins
Sauces, Condiments & Dressings	Emulsified Sauces, Table Sauces, Marinades	Mayonnaise, Salad Dressings, Ketchup, Marinades	Xanthan Gum, MCC 811F, Modified Starches
Beverages & Confectionery	Carbonated, Juices, Candies, Chocolate	Soft Drinks, Juices, Gummies, Chocolate Coatings	Caramel Color, Citric Acid, Pectin CE 514, Cocoa

4. Normalized Relational Data Model (Power BI & SQL Ready)

Every material is mapped to distinct 1-to-1 rows in **Application_Bridge_Map**, enabling cross-application queries without text parsing:

ID	Material Name	Level 1 Industry	Level 3 Application	Validation Status
#28	Ingredia RevaStab MC100	Meat & Poultry	Emulsified Sausages	R&D Validated
#28	Ingredia RevaStab MC100	Meat & Poultry	Injected Chicken / Turkey Breasts	R&D Validated
#132	Pepper Black Oleoresin 1001	Snacks & Savory Seasonings	Potato Chips / Extruded Snacks	R&D Validated
#132	Pepper Black Oleoresin 1001	Meat & Poultry	Emulsified Sausages	R&D Validated
#82	Textra Feta 400	Dairy	Triangular Processed Cheese	R&D Validated
#371	Xanthan Gum (200 Mesh)	Sauces, Condiments & Dressings	Mayonnaise / Salad Dressings	Analyst Proposed

5. Prioritized R&D TDS Collection Queue (195 Items)

● Priority 1: Urgent Collection (100 Items)

Target: Standalone commodities with zero TDS in family (Cocoa powders, Sodium Benzoate, Calcium Chloride, Citric Acid, Xanthan Gum).

Action Required: Collect manufacturer TDS & CoA, chemical purity %, heavy metal assays, and food grade declaration.

● Priority 2: Variant Verification (95 Items)

Target: Commercial strength variants (Black Pepper 1002..1032, Paprika 1001..1023, Garlic, Textra P 103..106).

Action Required: Validate active principle assay (Volatile Oil %, Capsaicin/Piperine %, Color Units ASTA) and specific carrier.

6. Implementation & Roadmap

Phase	Milestone	Status	Deliverable
Phase 1	Taxonomy & Normalization	Complete	Meat & Poultry and Snacks & Savory master tables generated.
Phase 2	Local Web Portal Sync	Live	Web explorer live on port 5000 with R&D PDF viewer.
Phase 3	R&D Laboratory Queue	In Progress	Execute collection queue for 195 laboratory parameters.
Phase 4	Final Database Sync	Pending	Incorporate verified CoAs and promote to production SQLite.
